MAXI HS

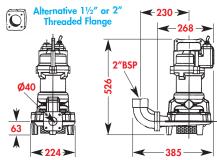

Drainage pumps with 6mm solids handling

The 230/1/50 or 400/3/50 MAXI HS submersible is designed for relatively high head drainage applications, with pumped media at densities to 1.2 kg/dm³, containing solids in suspension up to 6mm dia. and temperatures up to 40°C. It features a six blade extended vortex type impeller designed for high hydraulic efficiency, mounted on a reduced length shaft with overdimensioned bearings.

 G250 cast iron construction (Stainless steel and Marine Bronze options available) • Mechanical seal - silicon carbide Lip seal and O-rings in Nitrile
Oil chamber to lubricate and cool seals • Motor insulation class H, suitable for >15 starts per hour • 10 metres of Neoprene HO7RN-F cable as standard. • 2" BSP discharge elbow • Freestanding or Guiderail options
